THE EXCHANGE HOTEL.

James McCloskey, the enterprising proprieter of the Exchange Hotel, has recently made some changes in and about the house. He has secured the services of Charles Hamilton of Binghamton as bartender, who has had many years experience, and knows how to make all the seductive decoctions that are to be obtained at a first class bar. A lunch counter has also been added to the bar-room, which is a new feature.

A new cook has also been employed in the person of Albert Johnson who comes highly recommended, having filled similar positions at some of the leading summer resorts.

James Hendershott remains in his old place as clerk, and the patrons of the house will continue to be greeted by him in his usual agreeable style.

The basement under the office has been unused for many years. Mr. McClosky proposes to utilize it as a billiard room, and a new floor has been laid, and other necessary repairs are being made. Steps will be put in, leading down from the front pavement. Two fine billiard tables will be procured now, and more will be added as the demand increases.

THE BLESSED EASTER TIDE.

The Passion week programme of the Lutheran church is an elaborate one and of unsual interest every evening during this week. Special services are being held at 7:30, the subjects being governed as far as possible by the events of the days.

EASTER AT ST. PAUL'S.

The work that has been going on in St. Paul's Episcopal church for the past three months is completed, and the church will be ready for occupancy again on next Sunday. The improvements include the decoration of walls and ceilings, cleaning and varnishing the wood work, new carpet, new cushions, new kneeling stools, introduction of electric light, a new slate roof on a portion of the church, a new dove window in the apex of the south gable, new hymn, tablets and renovation of the baptismal font. New stained glass windows have been placed in the chancel, and new front doors put in. The church now is nearly complete in all its appointments, and the next thing that the congregation will turn their attention to, will be a new organ. They need it.

A son of B. R. Yetter of Mainville is a student at the Normal.

CENTRAL.

The snow has been going away quite fast for the past week. The heavy thickness of the ice makes the roads bad in places; our supervisor gives them his attention so that there may no accidents happen.

Quite a number of our people are complaining with bad colds.

Elias Shultz had his horse kicked very bad on Thursday afternoon. Dr. Patterson from Benton attended to its wounds.

We noticed Mr. Taylor and Lawyer Buckingham from the county seat one day last week.

Mr. J. W. Flynn, the popular bookkeeper for Thos. Procter at Jamison City, in company with C. E. Yorks, Esq., was making a business call on Saturday afternoon in Central.

I. B. Gibbons is remodeling the corner house for a residence which is to be occupied by Ralph Masteller, our harness maker. He does a good business in his line.

Mr. Lamon is the owner of a quart bottle said to be over a hundred years old on which the picture of George Washington and the famous cherry tree shows up splendidly in the glass.

Quite a number are going into business this spring, among them the following: G. B. Adleman of lower Central, stove and jewelry; Jacob Lorah in Tony Bushs' stand, general line with furniture; W. F. Stohner P. M., notions, tobacco and cigars; O. W. Larish, flour and feed. These with A. B. Herring's general store will make the public accommodated as to convenience.

Most all are looking for spring and are not sorry that the winter is nearly ended.

THE TWO OLD CRONIES.

The new and "up to date" edition of the Two Old Cronies, will appear at the Opera House on Wednesday, April 5th. It is in fact a new production and differs greatly from the Cronies that was seen here some time ago by the same company.

To say that the performance went with one continuous roar of laughter, feebly expresses the truth. The "Old Cronies" are bound to be popular.—*St. Joe Herald.*

The "Two Old Cronies" has caught on big at Pope's. From the opening to the close, the action is very quick and sharp, the fun and music bright.—*St. Louis Globe-Democrat.*

There is more fun to the square inch in "The Old Cronies" than in anything offered theatre goers in many a day.—*Columbus, Ohio, Statesman.*

THE SENATE COMMITTEE.

The Senate Appropriations Committee reached here last Thursday morning and at 9:30 they were met by a committee of the Board of Trustees of the Normal School, and taken in carriages to the School, where they inspected the buildings and grounds. On the way down from the School a pleasant call was made at Senator Herring's. At one o'clock dinner was served at the Exchange Hotel in excellent style. The Senators left at 2:36 and declared themselves much pleased with the visit.

BLISS QUARTET.

The Bliss Quartet of Princeton College will give an entertainment in the Opera House on Monday evening, April 3rd. The program is an excellent one, and a liberal patronage should be given to these students. They sang at Danville last night, and are at Wilkes-Barre to-night, where the sale of seats was very large. To-morrow night they will be at the Berwick Opera House.

The work of the Orange Mountain Co. of which we gave an account a few weeks ago, is completed, and has been shipped by the Bloomsburg Car Co. to its destination in New Jersey. J. K. Lockard and C. B. Ohl went down each with a gang of men to set it up, and they returned on Saturday. They report the work is giving entire satisfaction.

Superintendent W. C. Johnston and Miss Georgie Pursel were quietly married last week Thursday, at the home of the bride on Market street, by Rev. I. M. Patterson. We extend to them our warmest congratulations and best wishes.

G. A. McKelvy's Easter window is observed and admired by all who pass his drug store. He has a black hen and nine chicks, and a black and white rabbit with two very small young rabbits. They seem to get along very amicably together.

William D. Cosgrove, who has been the cook at the Exchange Hotel for eight years or more, has given up the place, and gone to his home in New Jersey. He has many friends here.

Col. Ricketts's Denial.

HE SHOWS THAT HE WAS IN COMMAND OF HIS BATTERY AT GETTYSBURG.

WILKES BARRE, March 28.—Colonel R. Bruce Ricketts, who commanded the famous Ricketts battery at Gettysburg and who, it has been claimed recently, has for thirty years been reaping the honor and glory earned by another man, to-day permits his name to appear under a letter answering the charges that have been made against him. He says:—

"My attention has been called to recent articles in New York and other papers, which state that I have been sailing under false colors for thirty years; that I did not command a battery at Gettysburg, but was on staff duty at the time; that the battery was commanded by 'Charles and Frank Brockway, of Beach Haven.'

"Charles B. Brockway was a brave soldier and one of my best lieutenants, but he never commanded the battery during any battle of the war. Frank Brockway was also a good soldier, but as he was a private at Gettysburg it is hardly likely that he would have commanded a battery. December 21, 1864, he was promoted to second lieutenant on my recommendation.

"The official Records of the war, published by the War Department, are now nearly complete. The following is a copy of my official report of the part taken by my command at the battle of Gettysburg from the Official Records of the War:—

"Headquarters Batteries F. and G., First Pennsylvania Artillery, August 20, 1863.

"Captain: In compliance with your communication of the 29th inst., I have the honor to submit the folfollowing report of the part taken by my battery in the battle of July 2 and 3, at Gettysburg:—

"On July 2, my battery moved from Tanevtown to Gettysburg with Captain Huntington's brigade, to which it was attached, arriving on the field about noon.

"At 4 P. M. I was ordered by Captain Huntington to report to Colonel C. D. Wainwright, First New York Artillery, who placed me in position on Cemetery Hill to the right of the turnpike, leading into Gettysburg. During the afternoon I was engaged with the batteries on the enemy's left, and in shelling a column of the enemy that charged into the woods on my right, which was occupied by the Twelfth Army Corps.

"At about 8 P. M., a heavy column of the enemy charged on my battery, and succeeded in capturing and spiking my left piece. The cannoniers fought them hand to hand with spikes, rammers and pistols, and succeeded in checking them for a moment, when a part of the Second Army Corps charged in and drove them back. During the charge I expended every round of canister in the battery and then fired case shot without the fuses. The enemy suffered severely.

"During the battle of July 3, I was engaged with the batteries on the enemy's left and center.

"During the battle of the 2nd and 3rd, I expended 1200 rounds of ammunition. The casualties were as follows: Killed 6; wounded 15; missing 3; horses killed 20.

"First Lieutenant C. B. Brockway, First Lieutenant Beldin Speace, First Sergeant Francis H. Snider, fought their sections with the greatest gallantry.

"I am, captain, very respectfully, your obedient servant,

R. BRUCE RICKETTS,

"Captain First Pennsylvania Artillery, Commanding Batteries F. and G.

"CAPTAIN C. H. WHITTELSEY,

"Assistant Adjutant General Artillery Reserve."

A Day in the Senate.

WASHINGTON, March 29.—A resolution (originally offered by Mr. Voorhees, Dem., Ind.,) was reported from the committee on contingent expenses and agreed to, authorizing the committee on additional accommodations for the library of congress to sit during the recess and to employ a clerk (at $2,250 a year).

Mr. Gorman (Dem., Ind.,) offered a series of resolutions regarding the election of officers of the senate, and asked that they be read and laid on the table, which order was made.

The resolutions require the senate to proceed to the election of its secretary, sergeant-at-arms, doorkeeper and chaplain. These officers are only to enter on the discharge of their duties on the 30th of June next unless the offices shall in the meantime become vacant by death, resignation or otherwise; and the present incumbents shall continue in office until then.

The resolutions name William R. Cox, of North Carolina, for secretary of the senate; Richard J. Bright, of Indiana, for sergeant-at-arms and doorkeeper, and Rev. William H. Milburn for chaplain.

Death of the Brazilian Minister.

WASHINGTON, March 27.—Baron de Aguiar de Audrada, Brazilian envoy extraordinary and minister plenipotentiary, in Washington on special mission, was stricken with apoplexy and paralysis Friday night and died last night at his apartments in the Arlington hotel.

The baron had attended the performances of "Still Alarm" at the National theatre and fell just as he was descending the steps at the entrance on his exit from the building. He was placed in a carriage, taken his apartments and a physician and watchers summoned. Dr. Magruder found that the apoplexy had been followed by a stroke of paralysis.

It Was an Important Decision.

WASHINGTON, March 28.—A most important result of the decision of the supreme court yesterday in the case of Huber vs. Nelson is called to public attention by the chief officials of the patent office. In this Huber case (as already reported) the court decided that a foreign patent having lapsed, by reason of non-payment of taxes, an American patent granted thereafter for the same invention is void. The action, it is said at the patent office, destroys Edison's quadruplex telegraph patents and also his microphone patents, leaving the Bell company after January next to stand wholly on the Berliner patent.

One Hundred Postmasters Appointed.

WASHINGTON, March 28.—Fourth Assistant Postmaster General Maxwell yesterday appointed 100 fourth-class postmasters and of this number 67 were to fill vacancies caused by the removal of the incumbents.

AGAIN THE PEOPLE ARE SCARED.

The Volcano of San Martin Becomes Active After More Than a Century.

CITY OF MEXICO, March 27.—The volcano of San Martin is now in a state of eruption, having been extinct for more than a century.

The volcano is situated in the midst of a populous agricultural district, whose inhabitants have fled to a place of safety. The eruption occurred at night and the scene was one of magnificent grandeur. The flames rose straight up from the crater to a height of 1,000 feet and the lava poured down the sides of the mountain in streams, doing great damage.

There Was a Row in the Church.

CANTON, O., March 25.—During services in the Methodist church in Roseville, Muskingum county, Henry Lowry took possession of a chair belonging to Earl Pemberton. A fight ensued. The combatants could not be quieted and the meeting broke up in wild disorder. Arrests will follow.

They Will All Go to the Revivals.

BABYLON, L. I., March 27.—A series of revivals being held in this place has caused much excitement. Next Wednesday meetings will be held at intervals during the day. The hotels and saloonkeepers have promised to close their bars on that day at 8 p. m.

McKeesport to Have a New Bank.

MCKEESPORT, March 25.—The new Citizens' national bank of McKeesport, will be open for business Saturday, April 1.

OUR HARRISBURG LETTER.

What Our State Lawmakers Are Doing at the Capital City.

HARRISBURG, March 29.—Farr's free text book bill has passed the house after meeting with strong opposition at each of its various stages. Mr. Lytle, of Huntingdon, in direct language charged that the school book trust is interested in the passage of the bill, since it gives to school directors and controllers unlimited powers in the purchase of books and supplies. Mr. Lytle said his view of the book trust's position on the measure was strengthened by the fact that it is proposed to follow up this bill with one appropriating $2,000,000 from the state treasury for the purchase of books. If the money is appropriated, which is not probable, the trust will certainly be in clover since all purchases will have to be made from it. Mr. Farr did not defend himself from Mr. Lytle's charges, but nevertheless the bill passed, the country members taking the ground that the people want free text books and this bill will, in some degree, meet that want.

Another bill of interest to certain portions of the state was debated in the house. This is the Kane bill taxing unnaturalized male persons twenty-one years of age or over $3 a year for county purposes. A similar bill was passed at the last session only to meet the disapproval of the governor. Mr. Kane, who is a practical miner from Fayette county, and undoubtedly the most eloquent and finished talker in the house, claims that his bill overcomes the constitutional objections the governor had to the previous measure. It stands a fair chance of being passed.

The Miller and Boyer bills regulating "post-mortem" and "ante-mortem" fraternal, beneficial societies, have passed both houses and are now in the hands of the governor. The general impression prevails that his excellency will approve both measures, since the legislation is desired by the classes of orders affected by them. Both bills have been amended so as to exclude Odd Fellows, Masons and similar orders from its provisions.

Senator C. Wesley Thomas, of Philadelphia, will in all probability be the next president pro tem. of the senate, succeeding General J. P. S. Gobin, of Lebanon. Senator Thomas' only competitor so far is Senator Kiefer, of Schuylkill. The former's friends began a quiet canvas yesterday, with the result that Senator Thomas is assured of the honor. The president pro tem. is elected just before the close of the session. Senator Thomas possesses all of the qualifications necessary for the successful performance of the duties of the position.

Before the ways and means committee, which held its second session in the hall of the house Tuesday for public discussion of the Niles' revenue bill, M. E. Olmsted, of this city, speaking on behalf of corporate interests in opposition to the bill, refuted the statement made last week by Leonard Rhone, master of the State Grange, to the effect that real estate pays on an average about nineteen mills, while corporate property pays only two mills.

Mr. Rhone's mill rate was reached by estimating the total real estate in the commonwealth at $2,000,000,000, which Mr. Olmsted characterized as absurd upon its face as it was less than $8 per acre for the entire state including city property, coal, iron, zinc, paint, slate and other mines, oil lands and timber lands, city lots, bank buildings, stores, dwellings barns, stables and all improvements of every kind. He also produced records from the offices of the various county commissioners showing that assessors were deliberately instructed in many counties to assess real estate at varying rates from one-half to as low as 10 per cent. of actual value. In Wilkes-Barre the assessors returned $27,000,000.

The county commissioners cut it down to $5,000,000 to equalize with the rest of the county, the entire county valuation being placed at $18,000,000, whereas in advertising county bonds it was stated at $150,000,000. He said Mr. Rhone's personal experience was the best refutation of his public statement and produced evidence in detail to show that his farm in Centre county, valued by reputable citizens at $14,000, was returned for taxation at $8,400, the total tax paid by Mr. Rhone being $84, equal to six mills on actual value. Of twenty-three cattle upon the farm only five cows were returned for taxation valued at $14 each.

The Pennsylvania tax conference, composed of fifty members representing ten different interests, is performing a very important and expensive service for the state in the collection of statistics, and before the end of the year will be able to show precisely the extent to which each interest within the state is taxed and the extent of certain interests which are not taxed at all.

HON. J. B. NILES.

Ex-Auditor General Jerome B. Niles, of Tioga, the father of the Niles revenue bill, is one of the most prominent members of the house and foremost in the discussion of tax measures. The Niles revenue bill is one of the most important bills under consideration by the legislature. Tuesday night M. E. Olmsted, of Harrisburg, and Mortimer F. Elliott, another prominent corporation attorney, appeared before the ways and means committee of the house against the bill. Mr. Niles is a forceful speaker and a profound thinker.

TWENTY MEN REPORTED KILLED

In a Fight Between the Choctaw Militia and the Jackson Faction.

FORT SMITH, Ark., March 29.—A fight took place yesterday between the Choctaw militia and Jackson faction at Antlers and twenty men are reported killed. The trouble is the outgrowth of the election last August for chief. In September, before the council met, four Jones men were assassinated by Jackson men. When the council met the United States militia were there to preserve order. Jones was declared chief.

Twenty-two men were arrested charged with the murders in September and are now in custody. Dick Locke, a prominent merchant of Antlers, was charged with inciting these murders but was not arrested. The militia was sent out to arrest him and others when their friends rallied to their support and the result was the battle of yesterday. A late dispatch says the militia have been arrested by the United States authorities and Governor Jones has been asked to go to Paris at once.

Nineteen of the militia were arrested by the United States officers and taken to Paris, Texas. Locke had no objections to being tried, but feared to allow himself to be arrested by Jones' militia and hence resisted. He stands high and has many friends. Three hundred men took part in the battle, each side having about 150 supporters. The latest advises say ten men were killed and fifteen wounded.

One side represents the Choctaw government, termed the national military, and he others are followers of Locke, who resists arrest, fearing that he will be killed instead of being given a trial. United States officers arrested nineteen of the leaders of the militia and took them to Paris, Texas.

A SUIT AGAINST WHARTON BARKER.

To Compel Him to Account for Large Sums of Money.

PHILADELPHIA, March 29.—Suit was begun yesterday in common pleas court against Wharton Barker by the finance company of Pennsylvania, to compel him to account for large sums of money, probably aggreating over $100,000, which it is alleged he as president of the company allowed the firm of Barker Brothers to collect as commission for work done for the company, as it averred the commissions should not have been paid.

The suit is the outcome of the sale of a large block of the Cincinnati, Charleston and Chicago railway company's securities to the finance company, for which it is claimed Wharton Barker, for his firm received, $100,000 in cash and $300,000 in bonds.

The provisional government is administering public affairs in a conservative manner and is strengthening its lines in every way.

THE FRENCH COACH STALLION, SENLIS.

The French Coach Horses have met with a most flattering reception in America, and are acknowledged to have a combination of power, elegance, and action that is found in no other carriage breed in the world.

These horses although not possessing the great speed of some of our American trotters, considering their size, have qualities unsurpassed by any other breed; they have been winners in the annual races of France, trotting an average rate of 2:40 per mile in race of from two to four miles under saddle over turf tracks carrying heavy weights. In forming this breed which so completely meets the demands for smooth high stepping horses of great style and endurance, the blood of the Barb, Arab and thoroughbred, were mingled, and in this magnificent race of Coach Horses, we have the result of more than two centuries of persevering and scientific skill of the best French breeders.

Owing to a demand for better bred horses in this county the French Coach Horse Company of Bloomsburg was formed recently and purchased the Imported French Coach Stallion, Senlis. Seal brown, 5 years old, 16 hands high and weighing 1420 lbs., a picture of which is shown above. Any information concerning this horse can be obtained of Evan Buckalew, or A. C. Creasy.

"I see you did not give that horse Bull's-Head Horse and Cattle Powder as I told you." "I forgot it Sir." "I knew it.. Look at that tight skin, rough coat, and tucked up belly! Here is 25 cents, go at once and buy a package and give him some to-night. Sold by all dealers."

The "dove" dinner, conducted with all the formality of the regulation dinner-party, is a decided innovation; but though the guest of the initial entertainment of the kind were invited to dine and incidentally discuss plans for charitable entertainments for the Lenten and Easter season, the affair was so enjoyable, and consequently successful, that others have followed with the sole and avowed object of pleasure. The truth of the matter is, bright women enjoy each other's society much better than is generally believed; and one, at least, has confessed that she considers a bright woman's appreciation more sincere than that of a man, and that she always feels on her mettle when with woman only. The strictest form regarding invitations, service, and toilet, are observed; dinner is served at eight o'clock, escorts are invited for ten, and all have departed by eleven.—*From Demorest's Family Magazine for April.*

As to Ourselves.

It is a fact which no one disputes, that nothing worth having is got in this world without hard work and waiting. Yet when we set ourselves seriously the task of gaining a great good, we become astonished and complain loudly at the discovery that we have to work hard and wait long to get it. This is about as reasonable as if a man should acknowledge that two and two made four, and should grumble because in his private cash account he could not make two dollars and two dollars add up to five dollars.

Nothing we find out in life is more utterly confounding than this: that truth is not only true in the abstract, but that it is true for us. It is not only a copy book axiom, but a vital fact in life, that if we do good, good is bound to come of it; and if we do evil, we must expect evil. It seems to take a long time before Nature convinces each of us that we live under her law as individuals in common with all mankind We concede that her law is immutable, but we have a secret conviction that an exception is to be made in our own particular case. —*Harper's Bazar.*

In Paint the best is the cheapest. Strictly Pure White Lead is best; properly applied it will not scale, chip, chalk, or rub off; it firmly adheres to the wood and forms a permanent base for repainting. Paints which peel or scale have to be removed by scraping or burning before satisfactory repainting can be done. When buying it is important to obtain

Strictly Pure White Lead

properly made. Time has proven that white lead made by the "Old Dutch" process of slow corrosion possesses qualities that cannot be obtained by any other method of manufacture. This process consumes four to six months time, and produces the brand that has given White Lead its character as the standard paint.

John T. Lewis & Bros.

is the standard brand of strictly pure Lead made by the "Old Dutch" process. You get the best in buying it. You can produce any desired color by tinting this brand of white lead with National Lead Co.'s Pure White Lead Tinting Colors.

CHRISTIAN ENDEAVOR.

Topic For the Week Beginning March 26. Comment by Rev. S. H. Doyle.

TOPIC.—Promise meeting. (Being a promise that you have tested.) Isa. xl, 8; Math. xxiv, 35.

In this promise meeting but one peculiarity of divine promises is emphasized, and that is the faithfulness of them. "God's promises are sure" is the keynote of our topic. In Isa. xl, 8, the prophet says, "The grass withereth, the flower fadeth, but the word of our God shall stand forever." In Math. xxiv, 35, Jesus says, "Heaven and earth shall pass away, but My words shall not pass away." In each of these the characteristic of certainty is prominent and uppermost, first, as to the promises of God, and, second, as to the promises of Christ.

1. The promises of God that have been fulfilled. "The word of our God shall stand forever," says the prophet, and the history of man re-echoes the statement. God has been faithful to all His promises. When man sinned He promised the world a Redeemer. The promise has been fulfilled in Jesus Christ. The promise to Noah that the world should not again be destroyed by a flood, the promise to Abraham of a covenant, people and country; the promise to be with His people Israel so long as they were faithful to Him, the promise "while the earth remaineth" of "seedtime and harvest, cold and heat, summer and winter, day and night," the promise to be with the widows and fatherless, have all been abundantly fulfilled, and well may it be said of the promises of God, "He is faithful that promised."

The promises of Christ that have been fulfilled. "My words," says Christ, "shall not pass away," and history also corroborates the truthfulness of His declaration. Christ has fulfilled the promises that He made when upon earth—that the gates of hell should not prevail against his church; that to all who would come unto Him He would give rest from sin; that when two or three of His followers were gathered together in His name, to be in their midst; that when He would go away He would send another comforter and guide, even the spirit of truth, and His great promise, "Lo, I am with you alway, even unto the end of the world." The promises of the Son have been as certainly and faithfully fulfilled as those of the Father.

3. The logical inference. The only logical inference from these manifold facts is that divine promises will always be fulfilled. Faithful fulfillment in the past and present is our firm assurance of faithful fulfillment in the future. Many precious promises have been fulfilled, many are daily and hourly being fulfilled, and many are still to be fulfilled, such as the second coming of the Son to judge the world and to receive to Himself the faithful of God. God's faithfulness should inspire us to faithfulness in return and to unlimited confidence in His word. "Let us hold fast the confession of our faith without wavering, for He is faithful that promised" (Heb. x, 23).

The Birth of Christian Endeavor.

Twelve years ago Feb. 2, quietly and without ostentation, was born the first society of Christian Endeavor. Twelve years have nearly passed, and there is scarcely a land on the globe that has not such societies, and there is scarcely a language of a civilized nation into which the constitution has not been translated. God has multiplied the seed sown until now we have 1,400,000 fellow members in over 23,000 societies, and never was the outlook so bright for Christian Endeavor as it is today. The only feeling that should animate our hearts is one of devout gratitude to Almighty God. There is no room for self congratulation or for boasting. All that can be said is with deep humility to exclaim, "This is the Lord's doing."

Williston church, Portland, Me., the birthplace of Christian Endeavor, had been organized three years when Dr. Clark accepted its pastorate. The church was the outgrowth of a mission Sunday school and a branch of the State Street Congregational church of Portland. Rev. Burke F. Leavitt, recently of the Lincoln Park church, Chicago, was its first pastor. Its present pastor is Rev. Dwight M. Pratt, author of "A Decade of Christian Endeavor."

The Christian Endeavor society was organized in the parsonage of Williston church. For four years previous to this date Mrs. Clark had gathered about her a band of boys and girls for Christian nurture and work. This band was called the Mizpah circle, and from this circle came many of the original members of the first Christian Endeavor society. As Mr. Pratt says, "Mizpah was the bud; Christian Endeavor the blossom." Most truly has Dr. Clark said that Mrs. Clark rocked the cradle in which the society was born.

At the meeting in the parsonage Dr. Clark read the constitution to those present, explained the pledge, and 57 signed as active members and six as associate members. Mr. W. H. Pennell, now of Boston and one of the trustees of the United society, was the first to sign the pledge and constitution.

Aspiration.

Would you see the beautiful vision,
That the Father has in store
For His chosen ones—His faithful,
Who serve Him evermore?

Would you hear the grandest music—
The swelling strains divine—
The heavenly melodies surging
Around that soul of thine?

Would you like the gift that's promised
To His children here below—
Ever to live in the sunlight
And joy immortal know?

Would you have the life eternal,
Ever with Him to be,
Lovingly serving the Master
Who gives such gifts to thee?

Oh, come unto Jesus, your Saviour,
And, coming, all burdens will fall.
He'll fill all your soul with his glory—
His grace he will never recall.

WASHINGTON LETTER

WASHINGTON, March 27, 1893.

Economy is the watchword in every department of the government and it will not be changed as long as democrats are in control. One of the very first things that President Cleveland impressed upon the minds of the members of his cabinet was that each of them should be liberal in the use of the pruning knife in cutting off sinecures and useless employes under them. Something has already been done in the cutting off line, but what has been done is as nothing when compared with what will be done. President Cleveland wishes the head of the department to anticipate the findings of the Congressional joint commission, which has already organized, for the purpose of investigating the work of the government departments, with a view to a reduction in the number of employes and an improvement in the present slow and in many instances cumbersome methods of transacting business, wherever possible. To change the methods will in many cases require a change in the law, but to compel every employe of the government to render an honest equivalent for the salary received, and to dismiss all the drones and shirks is within the power of the heads of the departments under present laws, unless somebody weakens it is going to be done. I heard of a case the other day which indicates that there is one Secretary who will not weaken, no matter what influence may be behind the shirker. By accident Secretary Carlisle learned that an $1,800 clerk —a woman—had only been on duty about half the time during the last 12 months. He sent for her chief and asked why this had been allowed. "Because she is backed by Congressman —(naming one of the most influential members of the House)" "That is no excuse at all," said the Secretary; "dismiss her at once, and understand that all the clerks in this department have got to work for their salaries or get out."

Mrs Cleveland has not indicated whether she intends holding any public receptions this spring, but all who desire to meet her can do so by writing and requesting that privilege, as she sets aside an hour twice a week—on Tuesdays and Fridays—to receive those who have in this way obtained her permission to call on her.

Almost as many misstatements have been made concerning the status of the extra session of the Senate as about the intentions of President Cleveland. Long stories have baen written, and editors who knew no better have printed them, about the Senate remaining in session against the wishes of the President, and about the annoyance it was causing him. As a matter of fact, the extra session only continues at the pleasure of the President, and as soon as he shall notify the Senate that he has no further communication to make to it, adjournment will follow, unless precedents are all set aside. So powerful is precedent that at this writing it seems probable that the democratic officers of the Senate will not be elected at the extra session, although they have been nominated by the caucus and a resolution adopted to proceed to elect them. The republicans entered a protest against this proceeding on the ground that it would be a violation of precedent, and the indications are that the democratic Senators will not act against that protest.

Democrats who are here after office do not as a rule take kindly to the order closing the offices of the members of the cabinet to the public on Tuesdays and Fridays—cabinet days—but it is really in their interest, for it will give the heads of the department an opportunity to go over the papers filed with them and make selections for appointments.

The reports for and against the seating of the appointed Senators from Montana, Washington and Wyoming, were presented to day. It is expected that the debate will begin at once and that the Senate will hold daily sessions until a vote is reached. The result is still very much in doubt.

England and France having raised their ministers to the dignity of Ambassadors the new democratic representatives of the United States to those countries will, in accordance with a law enacted by the last Congress be Ambassadors, instead of ministers plenioptentiary, as heretofore. This will, of course, add no honor to our ministers in the eyes of Americans, but every one at all familiar with the customs and usages of European capitals knows that it will add much to their prestige abroad.

Secretary Hoke Smith's first land decision was against the Southern Pacific Railroad's right to a large tract of land which it has claimed and kept from being opened to settlement. This decision not only opens this land to settlement, but it is a refutation of the silly republican charge that it was corporation influences which put Sec. Smith into the cabinet.

OUR WORLD'S FAIR LETTER.

CRYSTAL CAVE OF THE BLACK HILLS REPRODUCED AT JACKSON PARK. A THOROUGH BREAD MAKING EXHIBIT TO BE AT THE WORLD'S FAIR. HONOLULU'S EXHIBIT IN THE MIDWAY PLAISANCE. WILD WEST SCENES REPRODUCED IN PLASTER. MINNESOTA'S FRUIT EXHIBIT.

(From our Special Correspondent.)

Chicago, March 25, 1893.

South Dakota will have a novel and instructive exhibit in the Horticultural Hall. A reproduction of Crystal Cave is being built directly under the great dome of the Horticultural building. The last of the 200,000 pounds of crystal arrived two days ago, and the proprietors of the cave, Keith and Allbough, of Deadwood, have a large force of men putting the big blocks into snape. The exhibit will be in underground passageways consisting of seven apartments, the largest being 30 by 40 feet. In one corner will be a miniature lake, and at certain places the water will be dripping from stalactites just as it does in the original cave.

Each room will be made of a different form of crystalization, there being over sixty specimens of the most beautiful calcite ever found before. The crystals vary in color, some being white, others blue, red, pink and yellow. The entire interior will sparkle like a cave full of polished diamonds. Another feature will be some plants which have never seen the sunlight. These will be placed in the case, as will also the night—blooming cereus which has been donated by John Thorpe. The admission will be free.

The National Columbian Householders' Economical Association is to be the name of the Columbian Housekeepers' organization for the future. This society is intended for the improvement in domestic economy. A wonderful interest is being taken by the ladies in every locality where a local union has been formed in this new work. The association is only about eighteen months old, and there are over three hundred members. Mrs. John Wilkinson, its president, said today, when asked what they intended to exhibit at the Fair. "We have forty square feet assigned us in the women's department, and this entire space will be used to demonstrate the proper method of making bread. The whole process will be shown—each step, from the raw flour to the finished loaves, will be practically illustrated. This will be a continous object lesson during the Fair. Artists will be at work all the time on each part of making good bread, so that any one can easily see and understand how to make the best and most healthful bread."

A lifelike representation of the volcano Kulanea on Hawaii Island will be the exhibit from Honolulu. It will not be a government exhibit, but it is managed by private parties. This will be an interesting sight to those who have never had the opportunity to travel and see real volcanoes. In fact almost all the exhibits from abroad will be excellent object lessons to the young people who are in school. Object lessons are fast becoming recognized as the only true method of teaching the young. And surely the Columbian Exposition will be one continuous object lesson to every beholder. Every parent ought to appreciate the great benefit to his children that can be derived from a week's visit to the World's Fair next summer.

Near the centre of the Manufacturers' Building will be placed a group of figures by which will be illustrated the native Indians of this country. There will be seventy of these figures ranged in groups representing natural and characteristic positions. Thus, for example, there is one group that shows a number of Zuni Indians at work manufacturing pottery, and another representing them in a religious ceremony. The figures are all dressed in genuine garments that were secured from the Indians by the field agents of the ethnological bureau and other ways. These figures promise to be one of the most interesting exhibits in the great show.

Over 500 square feet have been assigned to Minnesota for its pomological exhibit. An appropriation of $5000 was made by the Minnesota Legislature for the exhibit. Every variety of fruit grown in the State will be included. The exhibit occupies the central portion of the horticultural building, and from the unique manner of its arrangement will be one of the most attractive displays in the section devoted to pomology. Shelves will be arranged inside the pavilion to accommodate 700 plates of fruit. The shelves will be backed by mirrors which will reflect light upon the fruit, thereby heightening their colors and producing an illusion as to the number of specimens on each plate. To Minnesota is due the credit and praise of being the first exhibitor in the section of pomology to build a structure for exhibit.

NOTES.

England's fine art exhibit reached Jackson Park yesterday afternoon in cars of such unusual width that they could not be switched to the Fine Arts Building.

The Ohio building is now practically complete. It is a handsome and commodious structure. A vast number of people can pass through its broad door and spacious corridors without causing any jam.

There are eight hundred men unloading the exhibits for the manufactures building. All repairs on this building will be completed by Monday.

Our Paper Money.

It is wonderful what precaution is taken by the United States Government to prevent counterfeiting of our paper money. The building in which the first processes are taken in its manufacture is situated apart from any other building in the south western part of Washington City. No one of the engravers are permitted to make a plate for an entire bill; but each one has a particular part to perform so that they may become experts—the parts are then placed together forming the entire bill and a duplicate made from it. With this duplicate the money is printed and the original retained. The printing requires three operations before the number and seal are placed upon them. The paper is counted before any printing is done and re-counted with every impression, afterwards several experts count it again, and throw out any defective sheets. At the close of each day all the money that has been made and once counted is enclosed in a large fire-proof vault, with time lock. Immense chests made of cold steel are used in transporting the money from the building of engraving and printing to the Treasury Department and in return more paper is sent back to be printed. Guards always accompany the transportation. At the treasury department the numbers and seal are placed upon the bills and after counting and re-counting until they pass through fifty-two hands, the money is put into packets, securely bound and ready for use

The most interesting and astonishing department in the Treasury building is that of the redemption office where old or torn money is received and new exchanged for it. When the old is received four holes are punched through as cancelling marks; the money is then taken to the macerating room where it is placed in a large circular machine, under time locks, a separate key being used by three of the officials, and the receptacle only opened after all three locks are open The machine then grinds and macerates until the money is made into paper pulp and sold to the paper manufacturer It is said that from $350,000 to $500,000 is thus destroyed every day. When we consider how much mutilated money is destroyed every day we do not wonder that it requires over five hundred skilled laborers in the manufacture of our paper money.

In the Treasury building is found the largest vault in the world being 57 feet wide, 89 feet long, and 12 feet high and contains at this time over $94,000,000 of silver. A similar vault for the gold contains over $83,000,000.

Applicants for positions under the mail routes, who held similar positions under President Cleveland must submit to a re-examination under the Civil Service rules before they are eligible to the place, and most of them wait their turn until a vacancy exists. There are many who supposed their former examinations would suffice, but the Civil Service rules are rigid in this particular and the administration seems to have decided that the rules must be observed.

A Popular Clergyman's Opinion

Indigestion, Skin Disease—Permanent Benefit.

The following statement is from a well known clergyman, and it will be read with interest by his thousands of friends throughout Pennsylvania, and also in New Jersey, and Kansas, where he spent twelve years of his life as a pastor, and took very active part in the great temperance work there as well as in G. A. R. matters. He served in the war in Co. B, 6th New Jersey Regiment, and is past chaplain of the 3d New Jersey Brigade association, and now a member of Lafayette Post G. A. R., 217, of Easton, Pa.

"During three years' service in the army I contracted indigestion and disease of the liver that caused me great distress and resulted in varicose veins in my legs, and a skin disease that made my limbs and hands running sores. I have for many years tried various remedies and some excellent treatment from physicians, but of the medicines I have ever taken Hood's Sarsaparilla excels them all for indigestion and skin disease. I have been greatly, and I think permanently, benefited by it." E. H. STEWART, Pastor of the Baptist Church, New Milford, Pa.

Pennsylvania People Benefitted.

MRS. CARRIE BOUTON GAINED IN FLESH 68 LBS. TO 121 1-2 LBS. BY THE USE OF A SIMPLE REMEDY.

MEN AND WOMEN INTERESTED.

"It is astonishing," said one of our physicians the other evening, "how many of the ordinary diseases people suffer from come from the one cause —excess of uric acid in the blood. To discover a medicine that would dissolve this acid has puzzled thousands of the best men of the medical profession, until Dr. David Kennedy, of Rondout, N. Y., produced what is known the world over as Dr. Kennedy's Favorite Remedy. The great value we place in Favorite Remedy comes from the fact that it is the only medicine that will effectually dissolve this acid thus curing rheumatism, dyspepsia, kidney, liver and urinary troubles and the sicknesses women suffer from. These and many more troubles all come from the one cause, as I said before, this death dealing uric acid."

Perhaps there has been no one person in Wyoming Co., Pa., that has suffered more than Mrs. Carrie Bouton, formerly of Schottville, but now of Harvey's Lake, Luzerne Co. Mrs. Bouton, in relating her restoration to health, said: "From a growing girl I suffered from female trouble or weakness peculiar to my sex. Several physicians prescribed for me but I found no relief. I was reduced in flesh down to 68 pounds. By accident I heard of Dr. Kennedy's Favorite Remedy and determined to try it, and to my great joy I began to realize that I had found a medicine that was doing me good. I think I had used five bottles when I found that I weighed 121½ pounds and was better in health than I ever was before.

Inquiry among Mrs. Bouton's neighbors shows that she states nothing but the facts in regard to her case. Many other instances of the kind are widely talked of in Scottsville, Tunkhannock, Wilkesbarre and other places where Dr. Kennedy's Favorite Remedy has effected many cures after physicians had given up hope.

"But," says one of our prominent druggists, "Favorite Remedy is equally efficacious in other diseases, as talks with people I have sold Favorite Remedy to affirm. To my knowledge right in our town Favorite Remedy has cured people suffering from rheumatism, dyspepsia, kidney, liver and urinary troubles."

Since the publication in one of the New York medical journals of the case of Mr. E. P. Tayer, of East Nassau, N. Y., Dr. Kennedy's Favorite Remedy has been increasing in sale. Mr. Tayer had suffered for fifteen years with inflammatory rheumatism. His case was practically abandoned by his physicians. Favorite Remedy was brought to his notice and in less than three months after its use he was a well man.

In commenting on this case Dr. W. H. Morse, of New York City, says: The great good in Favorite Remedy lies in its power to dissolve this deadly uric acid. In cases of dyspepsia, eczema, scrofula or any urinary diseases I have never known it to fail, when taken according to directions. Dr. Kennedy's Favorite Remedy is not only used by physicians now but can be found on sale by every medicine dealer. — *Wilkesbarre (Pa.) Times.*

Presidential Post Offices.

President Cleveland is moving slowly in the matter of appointing post masters of the first and second class. Both the President and Post Master General are overrun with anxious applicants. When the Post Master General is interviewed, he directs them to file their application, and await the decision. One of the inflexible rules is that the present incumbents shall serve out the remainder of the time for which they are appointed and a second requisite is that the applicant must be well endorsed by the party organization. Unless a candidate is accompanied by the congressman, and has his hearty support, and the commission of the occupant is about expiring—the interview is of no avail. Failing to get any encouragement before the Post Master General, a mad rush is made for the President only to meet with the same result. The President and his cabinet have made inflexible rules. An applicant will do well to head them. Neither time nor advantage can be gained by undue haste.

"Brace Up"

it is tantalizing admonition to those who at this season feel all tired out, weak, without appetite and discouraged. But the way in which Hood's Sarsaparilla builds up the tired frame and gives a good appetite, is really wonderful. So we say. "Take Hood's and it will brace you up."

For a general family cathartic we confidently recommend Hood's Pills.

A Great Bargain.

One of the very best water power flour and grist mills on big Fishing-creek with good buildings, new machinery, two dwellings, and other out buildings all in good order, and nine acres of land for sale cheap on easy payments by J. H. MAIZE, Insurance and Real Estate Agt., 3-31 tf. Bloomsburg, Pa.

The Lawyer's Point.

IT OPENED THE EYES OF A DAMAGE-SEEKING FARMER CLIENT.

From the Chicago Inter-Ocean.

He had come to Chicago from the country, principally to get legal help in prosecuting a railroad for running over his cow.

He brought up in one of the big office buildings toward evening and explained his grievance to a lawyer.

"I am to understand, then," said the lawyer, "that this cow was run over by a train at a crossing?"

"Yey; that's it."

"What kind of an animal was she?"

"Well, she was a pretty good critter; didn't have no tricks and would give a gallon twice a day."

"Valuable animal, I see?"

"Yes, purty good."

"What breed?"

"I dunno."

"You don't know? Was she badly injured?"

"Injured? She was killed deader'n a door nail."

"And buried?"

"Sure."

"Why, man alive, she was a fine Jersey—"

"Oh, no, she warn't."

"Yes, she was. Why, you glibbering old blockhead, did you ever hear of a cow that was run over by a railroad and safely buried that was not a fine Jersey with a pedigree three miles long and worth $400?"

Guaranteed Cure.

We authorize our advertised druggist to sell Dr. King's New Discovery for Consumption, Coughs and Colds, upon this condition. If you are afflicted with a Cough, Cold or any Lung, Throat or Chest trouble, and will use this remedy as directed, giving it a fair trial, and experience no benefit, you may return the bottle and have your money refunded. We could not make this offer did we not know that Dr. King's New Discovery could be relied on. It never disappoints. Trial bottles free at C. A. Kleim's Drug Store. Large size 50c. and $1.00.

A little ill, then a little pill. The ill is gone the pill has won. DeWitt's Little Early Risers the little pills that cure great ills. W. S. Rishton, Druggist. 10-14-1 yr.

I hereby notify all persons having ashes or rubbish in the alleys to remove the same in 10 days from date and on failure to remove the same, will do so with 20 per cent. added. Now look sharp to this notice.

3-24-2t. C. R. HOUSEL, Coms. of H. W.

It is a truth in medicine that the smallest dose that performs a cure is the best. DeWitt's Little Early Risers are the smallest pills, will perform the cure, and are the best. W. S. Rishton, druggist. 10-14-1y.

SPEAKING ABOUT CLOTHING

It's not a very interesting subject for everyone and yet, it interests a great many. Every one likes to be well dressed—but a great many get confused on the subject. Some think, that to be well dressed, they should go to a Custom Tailor and get measured

NEVER THINKING

That there are garments turned ont by ready made stores that will fit just as well—trimmed just as well, and look just as well and at a price about one half of what a Custom Tailor would ask.

WE'RE CLOTHIERS

But we're also Merchant Tailors so to speak, only that we have our goods already made up. We take particular pains with each and every garment, as to fit, workmanship and finish, and you can rest assured that when a garment leaves our store it will prove satisfactory to the wearer.

IF IT DOESN'T

We pledge ourselves to exchange goods or refund money and here's

ANOTHER POINT

GATHERED FROM HERE AND THERE.

Barney McFadden, a Miner, Murders His Wife and Children at Scranton—A Gang of Italian Laborers Run Down by a Locomotive—Other State News.

HARRISBURG, March 29.—The case of James M. Place formerly of the Pennsylvania Telegram, now in jail in Pottsville for libel was heard by the board of pardons yesterday. Place's paper was published in Reading and the libel was against a man named Womelsdorf at Pottsville. If was shown to the board of pardons by A. J. Whitehouse, the attorney, that the party who wrote the libel was not only not prosecuted, but was used as a witness against Place. Mr. Whitehouse asked for a pardon on the ground that the sentence was excessive; that Place has been sufficiently punished and the ends of justice have been met. Letters were read and presented asking for the pardon from George W. Childs, William Singerly, A. K. McClure, George W. Turner, Colonel John Cockerill, and other prominent journalists.

PHILADELPHIA, March 29.—Benjamin Evans Chain, the second oldest member of the Montgomery county bar, died at his residence in Norristown yesterday, in his 70th year, of an affection of the kidneys. His preceptors were G. Rodman Fox, of Norristown, and Hon. James M. Porter, of Easton, at which latter place he completed his law studies. He was a life-long democrat and a warm personal friend of the late General Hancock. He is survived by his wife, one son and a daughter.

READING, March 28.—Wharton Morris, one of the oldest practitioners at the Berks county bar, died suddenly of acute disease of the kidneys yesterday. He studied law in Philadelphia with William B. Heiskell, and was admitted to practice in 1854. He served one term as district attorney and was the solicitor to the board of directors of the poor for three years. He was a native of this city and about 60 years of age.

SCRANTON, March 29.—Barney McFadden, a miner living near Leggett's Creek breaker, this city, some time during Monday night murdered his wife and children. The scene in the house when the neighbors made the discovery yesterday was a terrible one, bearing evidence of an awful struggle on the part of the woman to escape the murderer. McFadden is missing, but police are searching for him.

ASHLAND, March 28.—Anthony Gup, aged 40 years, employed as a brakeman on the Reading railroad at Gordon, was crushed to death beneath an engine. He was stepping from the last car of his train when he slipped and fell to the track. An engine, which was following the train very closely, ran over him before he had time to escape.

PITTSBURG, March 27.—All the miners along the Monongahela, numbering in the neighborhood of 10,000 men, returned to work in the mines this morning in a body. The strike was practically declared off Saturday. The miners have been on a strike for nine months and to-day they resumed mining coal at three cents per bushel.

PITTSBURG, March 23.—Through worrying over the condition of his soul, W. R. Newell, of the Western Theological seminary, has gone crazy. He was a brilliant man, and bid fair to become one of the most talented of his profession. Mr. Newell only came to the Allegheny seminary in January and ever since then has been acting in a strange manner at times.

NEW CASTLE, March 25.—The contract for putting in the tank system at the Shenango glass works has been let to the Smythe company, of Pittsburg, and work will be commenced soon. The new system will increase the present capacity of the works about one-half and give employment to about 75 or 100 additional hands.

PITTSBURG, March 24.—Fire broke out in the works of the Roberts Manufacturing Company, 2624 and 2626 Smallman street. It quickly spread to the adjoining property of Benedick Boehm, a saloon keeper, and in a short time his place was in ruins. The fire was discovered by a servant girl at Boehm's place. The loss will reach $20,000.

LANCASTER, March 29.—Extra freight engine No. 245, of the Pennsylvania railroad, ran into a gang of Italians near Columbia. FOUR STATES SWEPT BY WIND.

The Damage Done by Thursday's Cyclone is Enormous.

MEMPHIS, March 25.—The damage done by Thursday's cyclone in the Mississippi valley is enormous. While the loss of life is not so great as at first reported, the damage to property will reach $2,000,000. The death list foots up twenty, while the list of injured will run up into the hundreds.

The first heard of the cyclone was in North Louisiana and South Arkansas. It crossed the Mississippi a few miles above Greenville.

The first fatality occurred near Shaw's Station, Miss., where the house of Drury Sumral, a prosperous and industrious colored farmer, was leveled to the ground, killing the entire family of nine persons. The hurricane then changed its course slightly and traveled the right of way of the Yazoo and Mississippi Valley railroad until it entered Cleveland, Miss., where a public school building, several houses and stores were razed to the ground.

Leaving Cleveland the cyclone passed within a mile of Clarksdale, a town of 2,000 inhabitants, and next struck Tunica, the county seat of Tunica county.

Nearly every building in the place was wrecked. As the cyclone left Tunica it divided, one portion traveling in a northeasterly direction, while the other took a northwesterly course, and again crossed the Mississippi river in Arkansas, where it spread ruin through three counties.

The towns of Crawfordsville and Vincent were nearly wiped off the face of the earth, and the storm then took a northeasterly course, reaching Kelly, Miss., about 4 o'clock in the afternoon. Here the greatest damage was done. Six people were killed outright and scores injured.

After leaving Kelley the cyclone passed into Tennessee, the next place to fall in its path being Spring Creek, a small town in Madison county, where several people were injured, but no one was killed.

Girls Useless in Egypt.

In Egypt, and in many other heathen countries, it is the custom to throw away girl-babies. They are cast into the rivers, or fed to wild animals. Of course, this is very terrible for us to think about, and, lately, some good people have found a way to prevent the slaughter in a measure. An order has been formed called the Order of the Holy Childhood.

Each member gives one cent a month, or twelve cents a year. With this money, which amounts to a great deal if there are many members, missionaries are sent to Egypt and to all countries where they destroy babies, with instructions to buy all the little children they can find. A baby-girl rarely costs more than two cents, and the missionaries buy hundreds just in time to save them from watery grave. The children are then sent to Christian institutions and are brought to be civilized women.

Unscrupulous practices permeate the methods of to day. Bull's Head Flavoring Extracts are prepared with conscientious care, and are, therefore, of unusual merits. Price 10 cts.

Slurs for the Pennsylvania Troops.

The Washington correspondents of the New York papers knew what their employers and a majority of their New York readers wanted when they copiously interlarded their reports of the inauguration parade with slurs and sneers at the Pennsylvania troops. Any man whose knowledge of the situation and familiarity with the military matter fit him for an intelligent judgment on the subject, well knows that no other State has a military establishment at all comparable with the National Guard of Pennsylvania. As General Sheridan bluntly replied, when asked, in the course of description of a former inauguration, whether there were no other militia in the procession. "None worth a ——." The gingerbread soldiers of New York, with their mongrel uniform and fuss and feathers, make a sorry contrast with the solid battalions of Pennsylvania when the two are brought together, and no wonder the New York papers were envious and sour.—*Reading Times.*

A NEW SYSTEM OF ROADMAKING.

Its Projector Claims Superiority and Cheapness Over the Macadam.

Mr. Clovis E. Keach of Burrillville, R. I., at a hearing before the joint special committee appointed to inquire into and report on the condition of roads in the state of Rhode Island, explained a system of roadmaking which in many respects is different from any other. He presented a communication from 97 of the residents of his town setting forth that they had witnessed a test of the road and the result was very satisfactory. The roadway proper is formed of a gravel or broken stone surface divided into sections by means of transverse lines of layer stones, which are flush with the surface. These lines of stone tend to make the gravel or intermediate material proof against local disturbance from the inordinately heavy vehicle wheels or from the action of rushing water.

Each side of the roadbed is flanked by a gutter filled in with broken stone or cobblestones, which provides a curblike structure to prevent the gravel from being unduly spread by the constant action of the wheels. The roadbed is slightly curving along the center, with a slight channel along the edges, where at suitable intervals are constructed blind drains that allow the water to escape in the adjacent soil. On an incline a series of oblique or transverse breakers or dams are made to deflect the water aside before it has attained sufficient volume and momentum to be injurious.

Mr. Keach claimed that his road was superior to the macadam in many ways. In relation to the financial side of the question, he believed that $1 would go as far as $2 for other roads. The road built on the Burrillville highway for test purposes cost $3 per running rod, 8 feet in width and from 1 to 2 feet in depth. In some places it would cost less. In figuring the cost he did not figure the cost of the stone, which was near by.—Providence Journal.

The Road Movement In Rhode Island.

This agitation for good roads has now become national. There is no state in the Union in a better condition to meet this problem and to solve it in a practical, businesslike manner. The cost of good roads will be smaller in Rhode Island than in any other state because our population is more concentrated, and the burden of cost will be lighter because we are almost the wealthiest state in the Union. In less than two years our old state debt will be wiped out, and we shall be comparatively the richest and most populous state in the country, free from all incumbrances, with a total valuation of not less than $400,000,000, or about $1,160 per capita. It is a fair estimation that it will take from $1,500,000 to $2,000,000 to put our main roads in thorough condition.

The benefits arising from good roads would considerably lessen the burden of expense. We shall find relief in an increased valuation of the land. The commissioner of industrial statistics has been inquiring into the number of abandoned farms in this state. Here are some of the figures he has collected: In Burrillville he finds that there are 89 abandoned farms, representing $86,100; in Coventry, 67 farms, representing $83,480; in West Greenwich, 65 farms, representing $61,700; in Scituate, 45 farms, representing $16,900, and in Gloucester, 30 farms, representing $13,650.

I do not pretend to say that better roads will turn these abandoned acres into fertile fields and rich pasturage, but bad roads are to some extent responsible for their present condition, and it is fair to presume that there are a number of them which would be taken up and worked at a profit if easier and cheaper means of bringing the produce to market were provided. Many of them would be quickly taken up as country residences if they were made easy of approach by good roads.

Popular as Rhode Island is as a summer resort, improved highways would double the number of visitors that flock to her shores. I believe the increased value of land and reduced cost of transportation will make the perceptible increase of the tax a very small burden. In fact, an expenditure for that purpose may be regarded as a judicious and lucrative investment rather than a burden.

The governor pointed out that there was a chance for Rhode Island to achieve the distinction of being the first state to have a complete system of well constructed main roads.—Governor Brown's Address.

Ireland Has the Best Roads.

The best roads in the world are those to be found in Ireland. They are far superior to those in England or in Germany. Tourists from every country pronounce them unrivaled. This splendid road system is directly in the hands of the government, with a government inspector for each county, who examines the roads and gives a certificate for the excellency of the work done before the road contractors are paid by the government. And this government inspection of the roads takes place every three months, and the contractors are thus always made to attend to the repairs of the roads. I hope the coming convention will consider this system of public roadmaking. All who have seen and examined it pronounce it the very best in existence.—St. Paul Globe.

Railroads Responsible For Bad Roads.

It is plain that if there had been no railroads in our country for the last 50 years the people would have been driven to give more attention to the wagon roads, and by this time the whole country would have been covered with a network of well constructed stone and gravel roads leading in every direction. The railroads have absorbed the attention and the capital. The multiplying of all manner of vehicles has continued, and millions of money and tens of thousands of people are engaged in construction, but out of the cities and with the exception of a few hundred miles of macadamized roads the vehicles of all sorts must travel over roads that quickly ruin them and are not worthy of the civilization of any people in any land.—Wilmington Messenger.

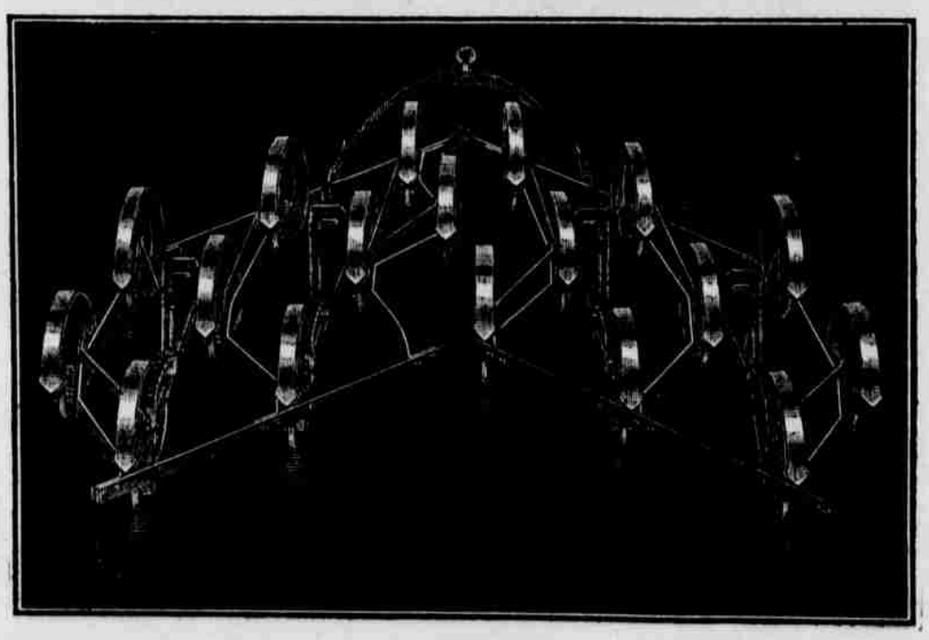
LOOK THIS WAY!



TO Farmer's and the PUBLIC -in- General.

We wish to say that we are still manufacturing and dealing in Agricultural implements at Orangeville, Pa., and certainly from long experience we should know the wants of the Farmers and public in general. And, in this connection we wish to say that all machinery we manufacture or handle is equal to any on the market, and sold at lowest prices.

We make a good cast head Land Roller, which every Farmer should have. Also Plows, Scotch Harrows, Cultivators, Wood Saws, Corn Shellers, and Feed Cutters, and a specialty of Horse Power Threshing Machinery. Then we handle the 'Empire" Fertilizer, Grain Drill and Hay Rake, "Hench's" Walking and Riding wheel Cultivators, "Woods" Harvesting machinery (which needs no recommendation), single and double Corn Cultivators, Engines and Saw Mills etc. Lastly we wish to show up the **New Deerfield Lever Harrow** the only one that has a separate adjustment for each tooth independent of the levers. The only four lever Harrow on the market whereby the two centre sections can be let down in a dead furrow, or any one or more of the four sections can be raised and the balance of the teeth kept at work, frame at all times being level. It has a self coupling hinge, no bolts or pieces to lose, with circular steel evener to equalize draft while turning corners. This Harrow is no experiment with us, and will be put out on their merits same as any other goods.

We also make and carry a large stock of Plow repairs, also an endless variety of other implement repairs. We are also prepared to do almost any kind of saw or grist mill repairing (having recently put in new Iron Lathe and boring machinery etc. We also carry a full line of dressed building lumber. We appreciate the patronage of the public in the past and covet a continuance of the same in the future and will be glad to have any one call to see us, or answer their inquiries for any thing in our line and will qnote lowest prices.
